The Division of Student Affairs  
CAREER SERVICES CENTER

How We Help Students Do Something Bigger Altogether
We help students make critical decisions about their academic and life path and prepare them to translate their UNCG success to post-graduation success.

Mission Statement
The mission of the Career Services Center is to provide professional guidance and resources to undergraduate and graduate students and alumni for their lifelong career development. Programs and services are designed to educate, counsel, and engage students and alumni in career planning and decision-making, experiential learning, continuing education, and/or employment search activities. To provide these programs and services, the Career Services Center establishes mutually beneficial relationships with students, alumni, employers, faculty, staff, and the community.

Points of Pride
- Developed new “Experience Programs” to provide each class year with specific skill development opportunities and programming
- Formally developed an employer relations team to assist our employer partners in connecting to the greater university community
- Created first shadowing program for freshmen and sophomores, and currently developing a mini-internship program for freshmen
- Transitioned office into a liaison model to provide each School/College with specific services and programming relevant to students’ needs
- Continued to provide top service to on-campus supervisors and the training and development to expand their leadership abilities

By the Numbers (2011-2012 Academic Year)
- Served more than 7,500 individual students
- Developed more than 200 new organizational connections to provide new opportunities to students and alumni
- Saw the highest attendance at the Part-Time Job Fair - over 1,000 students
- Maxed out employer attendance at annual Fall Career Day
- Lowered wait time for appointments with career counselors by more than two weeks
